Proposal: www.identifymycow.com

A website to identify and learn about cow breeds.

By: Adam Butler

Executive Summary

This system will provide a database and pages to be used to identify and learn about different cow breeds. The system will allow the user to sign up and create an account. The user will be able to search for different cow breeds. Each cow breed will have its own page and will feature an image and info pertaining to that breed.

Use Case 1: Homepage

- Homepage will contain links to signup, login, and cow breed directory.

Use Case 2: Signup

- User will enter First Name, Last Name, Address, City, State, Zip code, and phone number to create an account.

Use Case 3: Login

- User will enter username and password to login to system.

Use Case 4: Directory

- Directory will contain links to each individual cow breed.

Use Case 5: Breed Info Page

- Each breed page will contain a photo of the cow breed and other information describing that breed.
